

I am pleased to share the exciting news that Capital Vacations acquired VRI Americas and Trading Places International (TPI). As CEO, I'm honored to formally introduce you to Capital Vacations and welcome you to our team. This is a great day for both companies as we bring together our shared passion for the independent resort market.

Capital Vacations is the leader in the independent resort market with our combined company now serving over 200 independent resorts and associations and nearly 400,000 members across the U.S., Mexico, and the Caribbean.

For today, my ask of each of you is that you keep doing what you do best — taking care of our members and guests. They are, and will always remain, our #1 priority.
